Performance and Progress

Earth and Space Sciences Directions for Administration

Grade 5, Practice Test

CAA for Science Administration Notes

For questions regarding the CAA for Science or other CAASPP assessments:

- Parents/Guardians should contact their child’s teacher.
- Test examiners and other school personnel should contact their LEA CAASPP coordinator.
- LEA CAASPP coordinators should contact the California Technical Assistance Center (CalTAC) by phone at 800-955-2954 or by email at caltac@ets.org. CalTAC is open from 7 a.m. to 5 p.m., Monday through Friday.
- For more information on all aspects of the CAAs, including test security, item types, and guidelines, refer to the *Online Test Administration Manual for CAASPP Testing*, which is linked on the [CAASPP Manuals and Instructions web page](https://www.caaspp.org/administration/instructions/index.html) at <https://www.caaspp.org/administration/instructions/index.html>

Directions for Administration

About the Practice Test *Directions for Administration*

This California Alternate Assessment (CAA) for Science *Directions for Administration (DFA)* document contains information needed by test examiners to prepare for and administer one of the practice test performance tasks (PTs). This *DFA* contains specific information about this PT, including

- student engagement and student response,
- the concept of individualization,
- orienting activities and graphics for the orienting activities,
- the associated script for the online test questions, referred to as test items, and
- a complete list of materials needed for the administration of the performance task and suggestions for individualization, if needed.

Additional Information

- [California Alternate Assessments](https://www.caaspp.org/administration/about/caa/) web page at <https://www.caaspp.org/administration/about/caa/>
- [CAA for Science: Practice Test Scoring Guide—Earth and Space Sciences, Grade Five \(PDF\)](https://www.caaspp.org/rsc/pdfs/CAA.Science.PT-Scoring-Guide.Grade5.Earth-and-Space-Sciences.Earth-Processes.pdf) web document at <https://www.caaspp.org/rsc/pdfs/CAA.Science.PT-Scoring-Guide.Grade5.Earth-and-Space-Sciences.Earth-Processes.pdf>

Directions for Administration (cont.)

Using the *Directions for Administration*

This *DFA* contains the script for administration of this CAA for Science embedded PT. Keywords, symbols, and instructions for test examiners are as follows:

Guide to Administration Scripts	How the Test Examiner Should Proceed
SAY	The test examiner reads the material aloud to the student.
POINT TO the corresponding picture	The test examiner points to the information on the screen.
READ each option and POINT TO the corresponding picture	The test examiner reads each option on the screen aloud while pointing to the graphics or text on the screen.
DO	The test examiner performs an action.
ALT	The test examiner reads the alternative text instead of pointing to the image.
IND	The test examiner has the option of administering the orienting activity or test item using either the original format or an individualized format. Guidelines for administering in both formats are provided in the <i>DFA</i> .

Alternative Text for a Student with Visual Impairment **ALT**

Within the *DFA* is boxed and *italicized* text preceded by the **ALT** symbol that provides the Alternative Text for a Student with Visual Impairment. The alternative text in these boxes should be used to describe images for a student who is not able to fully access the images or videos used in the assessment.

The alternative text is intended to be a supplement to the administration script for students who are visually impaired and should not be used in place of the administration script. Where the administration script prompts a test examiner to “**POINT TO**” an image, the test examiner would instead read the relevant alternative text to the student. The alternative text can be repeated based on a student’s need or request. The alternative text should be read exactly as it is written in the *DFA*, without clarification or rephrasing.

Optional Individualization **IND**

Like other standardized assessments, the CAA for Science should be administered to each student in a consistent manner according to the directions provided, with variations only as specified in each student’s individualized education program (IEP). To maximize engagement for all students, the CAA for Science sometimes offers additional options for individualization in specific orienting activities and test items. This *DFA* provides test examiners with guidelines on how to individualize.

Directions for Administration (cont.)

In preparation for administering this PT to a student, review the listed options for individualization and then decide if individualization is appropriate. If so, gather the alternative materials before you start testing with the student. A student should carry out activities to the greatest extent possible, but if the student is unable to do so, the test examiner may manipulate the materials to conduct the activity. A summary of all materials that may be needed for this embedded PT can be found on page 12 in [appendix A](#).

Student Responses

The CAAs are designed for one-on-one administration between a student and a test examiner who is familiar with the student. When able, students should provide responses directly into the testing device. In some cases, the test examiner may select the responses indicated by the student by means that include, but are not limited to, gesture, eye gaze, or an alternative communicative device. In all cases, responses must come from the student and not from the test examiner. **Hand-over-hand or other physical prompting by the test examiner is NOT permitted on any CAA.**

Videos

Videos are sometimes used to provide demonstrations of scientific phenomena. **These videos do not contain audio.** Some videos have accompanying text in the *DFA* that the test examiner must read to the student.

Videos may be paused or replayed as many times as needed. A student or test examiner may change the playback speed (i.e., 0.5X, 1X, 1.5X, and 1.75X) on the progress bar as necessary to ensure the student is able to process the content.

Student Engagement and PT Completion

Establishing and maintaining student engagement is important to the successful administration of the CAA for Science. The test examiner may pause testing if the student is no longer engaged, is not actively participating, or is showing signs of behavioral or functional concerns related to the test. Testing may resume at a later time as appropriate for the student.

If a student does not regain productivity and engagement, even after allowing breaks over multiple days, a test examiner may end a student's test. To end the test early, advance through the remaining test items and then submit the test.

A student should be administered as much content of each PT as possible. Take the time necessary to elicit the student's best performance on each test item. A student should use the mode(s) of communication used in daily instruction.

Take advantage of options for individualization if offered in this *DFA*, and remember that test examiners can always use accommodations and resources to best meet a student's individual needs, as documented in the student's IEP. Please note that all test items may be individualized based upon the student's IEP.

Directions for Administration (cont.)

Selecting the “Mark as No Response” Option*

Ultimately, the professional judgment of a test examiner who is familiar with the student will ensure each student gets the best possible opportunity to demonstrate what the student knows and can do. For cases where the student is presented with a test item and does not provide a response, a “Mark as No Response” option is available for each test item and is found in the context menu (☰) in the upper right corner of the screen. Test examiners then select the **[Mark as No Response]** option and proceed to the next test item. Please remember that test examiners should use this option only if they have presented the test item (i.e., read the test item) to the student and the student did not provide a response, despite the test examiner’s best efforts to elicit a response. More information on response options is available in the document [Response Options for Alternate Assessments](https://www.caaspp.org/rsc/pdfs/CAASPP-ELPAC--Response-Options-for-Alternate-Assessments.2021.pdf) located at <https://www.caaspp.org/rsc/pdfs/CAASPP-ELPAC--Response-Options-for-Alternate-Assessments.2021.pdf>.

* The “Mark as No Response” option is not available on the CAAs for English language arts/literacy and mathematics.

“Mark as No Response” Option Versus Next

Presented Test Item to Student?	Student Response	Test Examiner Action
Yes	Student provides no response.	Select [Mark as No Response] option from context menu.
No	Student has become unresponsive and test examiner determines that it is best for the student to end the performance task.	Select [NEXT] button to continue through to end of performance task and then select submit button.

Administering the Science Test

Preparation for the Orienting Activity

The orienting activities prepare the student for the actual test items. The first orienting activity introduces concepts covered in the first five test items of the embedded PT. The second orienting activity introduces concepts covered in the last five test items.

As the test examiner, you may substitute objects that are more familiar to the student for these activities.

Orienting activities sometimes make use of graphics or other manipulatives that are external to the test delivery system and sometimes use videos or graphics that are within the test delivery system. Be sure to have graphics and manipulatives ready before starting the test session. Refer to [appendix A](#) for a complete listing of all materials that may be needed for this embedded PT.

Orienting Activity 1—Earth Processes

The purpose of this activity is for the student to watch a video that shows the impact of a volcanic eruption on a nearby town.

Orienting Activity 2—Fossils

The purpose of this activity is for the student to identify where an organism would have most likely lived based on the features of its fossil.

Begin the Orienting Activity

Log the student on to the test delivery system now.

Earth Processes

Script for Orienting Activity 1—Earth Processes

DO: Play the video.

ALT *The video shows an island. On one side of the island is an erupting volcano. Smoke and ash are coming out of the top of the volcano, and lava is flowing down the sides. On the other side of the island is a town. The lava is flowing toward the town.*

As the video plays,

SAY: Here we see a volcano erupting. We can see the lava flowing down the sides of the volcano. The lava is heading toward the town at the bottom of the volcano. People will need to leave their homes, and businesses will have to shut down.

— This concludes Orienting Activity 1. —
Begin testing on the next screen.

Scripts for the First Set of Test Items

1

READ the item, **POINT TO** the options, and

SAY: A

ALT *The picture shows a dark sky with lightning, rain, and dark clouds.*

SAY: B

ALT *The picture shows a blue sky with the Sun and fluffy white clouds.*

2

READ the item, **POINT TO** the options, and

SAY: A

ALT *The picture shows a street with houses, cars, and trees.*

SAY: B

ALT *The picture shows a street with houses, cars, and trees covered in a lot of water.*

3

POINT TO the picture.

ALT *The picture shows a storm at the beach with big waves and dark clouds.*

SAY: This picture shows a storm with big waves.

READ the item, **POINT TO** the options, and

SAY: paddle out into the water

leave the beach

have a picnic by the water

4

READ the item, **POINT TO** the options, and

SAY: take a nap

ALT *The picture shows a person sleeping on a couch.*

SAY: make a plan to leave

ALT *The picture shows two people pulling suitcases and walking out the door.*

SAY: read a book

ALT *The picture shows a person sitting on the couch reading a book.*

5

READ the item, **POINT TO** the options, and

SAY: look out a window

ALT *The picture shows a girl looking out the window.*

SAY: cook dinner

ALT *The picture shows a girl cooking dinner.*

SAY: get under a table

ALT *The picture shows a girl hiding under a table.*

SAY: stand in a doorway

ALT *The picture shows a girl standing in a doorway.*

If the student only provides one response (correctly or incorrectly),

SAY: What else is safe to do during an earthquake?

— This concludes the first half of this embedded PT. —
Prepare for Orienting Activity 2 before proceeding to the next screen.

**Fossils****Script for Orienting Activity 2—Fossils****IND**

DO: Show [Graphic 1](#) to the student.

SAY: This is the fossil of a starfish. Let's think about where it lived when it was alive.

DO: Show [Graphics 2](#) and [3](#) to the student.

SAY: This picture shows an ocean, and this picture shows a canyon. When the starfish was alive, it lived in the ocean.

IND The test examiner may substitute a different fossil or landscapes used in classroom discussion.

— This concludes Orienting Activity 2. —

Continue testing on screens 6 through 10, which correspond to on-screen sequence numbers.

Scripts for the Second Set of Test Items

6

POINT TO the picture and

SAY: This picture shows a fish fossil.

READ the item and **POINT TO** each option as it is read.

7

POINT TO the picture and

SAY: This picture shows a fossil of a woolly mammoth.

READ the item and **POINT TO** each option as it is read.

8

POINT TO the picture and

SAY: This picture shows a fish fossil.

READ the item and **POINT TO** each option as it is read.

9

POINT TO the first picture and

SAY: This is a fossil of a plant.

POINT TO the second picture and

SAY: It was found in this mountain.

READ the item and **POINT TO** each option as it is read.

10

POINT TO the picture and

SAY: This picture shows three different layers.

ALT *The picture shows three layers of rock and a key showing that the top layer is sand, the middle layer is fish fossils, and the bottom layer is small rocks.*

READ the key.

Part A

READ the item and **POINT TO** each option as it is read.

Part B

READ the item and **POINT TO** each option as it is read.

— You have completed this performance task. —

Appendices

Appendix A: Summary of Materials

This appendix contains a summary of the materials that are necessary for the administration of the orienting activities and certain test items for all students. It may also contain a summary of the materials that may be used to individualize the orienting activities or certain test items. Please note that all test items may be individualized based upon the student's IEP.

Student Interaction	Page	Exemplar Materials	Optional Materials for Individualization
Orienting Activity 1— Earth Processes	6	Video	None
Orienting Activity 2— Fossils	9	Graphics 1–3	Pictures used during instruction may be used in place of Graphics 1–3.
